Go to: www.amsn.com.au**

Description

The **Australian Musculo-Skeletal Network** exists to provide quality inter-professional development opportunities for practitioners, researchers and academics engaged in musculo-skeletal care.

This seminar, **Connecting Practice**, will show how collaboration between professions improves practice, client outcomes and your business.

Together with some of the best speakers in their fields you will connect and/or re-connect with: new knowledge about the state of your current & future clientele; the use of evidence and research that can improve practice; specialist clinical skills – reading radiography (X-Ray, MRI) in the lower and cervical spine and the knee. As well you will connect with other musculo-skeletal focussed professionals and the services they offer.

Hosted at the beautiful **Dune Room** directly opposite Belongil beach **Byron Bay**. Catered for by the outstanding food talents of the Belongil Beach Café and with Master of Ceremonies Mandy Nolan

Come and join us.

CPD Value

Attendees at this event may claim 7 CPD hours.*

* Please refer to your association's CPD requirements to determine the number of CPD points you are eligible to claim.

AMS Network Seminar: Connecting Practice

Sat. 15th of March, 2014; 8:30am to 4:30pm
